

**STARS WE NAVIGATE BY & GIANTS WE BUILD ON**

**From the series [Bridges]**

Every 1st of the month in 2017, I have a mini-exhibition at my house. In May, I am showing "**STARS we navigate by & GIANTS we build on**". This is one artwork (20 x 120 cm) consisting of 2 photographs (20 x 30 cm) and 1 certification (20 x 30 cm).

Around the world, I am doing **Bridge-Performances**. These performances are the makings of photographs of me by tourists on bridges. So this temporarily co-creating with the tourists are the Bridge-Performances. In post-production, I experiment with these photographs to emphasise certain ideas. Such as the bridge as a metaphor symbolizing process and transition. Especially communication, power and self-development interests me.

**The photographs** in the work "**STARS WE NAVIGATE BY & GIANTS WE BUILD ON**" are a collection of Bridge-Performances' photographs, where you can see me with
